Arlene

We are aware of the PFOA issue in Hoosick Falls and no this was not a part of the UCMR3 sampling....still trying to determine exactly but it appears the water system conducted this sampling on their own.....we just got some data from them and are compiling now....will provide to youthe Rensselaer Co. DOH has been the lead on this to date and we are working with them....will pull together the details as we know It to date and forward on to you

Roger

Subject: PFOA in Hoosick Falls water

Teresa and Roger,

I have some questions on the issue of PFOA found in the Hoosick Falls, NY water system:

- What this part of the UCMR EPA-HQ sampling?
- Is there an activated carbon system installed yet?
- Any follow-up being done by your department or the local agency?

Any information you can provide would be appreciated.

Thanks,

Arlene
